

**Two milestone flood
plan documents
placed online**

The Central Valley Flood Management Planning Program has placed two milestone documents online. [The Management Actions Report](#) identifies, develops, and evaluates a wide range of actions that contribute to flood management. [The Interim Progress Summary No. 2](#) takes a look at the Central Valley Flood Protection Plan development process and provides a preview of upcoming development activities. A public forum on Central Valley flood management planning efforts will be held Thursday, Dec. 9, in West Sacramento. Details are available on the [DWR website](#).

**Public comments
sought for Delta
water issues**

The public is being given the opportunity to provide comments or information on a couple of Delta water issues. Materials related to the San Joaquin River flow and southern Delta salinity objectives included in the 2006 Water Quality Control Plan for the San Francisco Bay/Sacramento-San Joaquin Delta Estuary must be submitted by noon on Tuesday, Feb. 8. More information is available on the [Cal/EPA website](#).

**Public invited to
attend meeting on
Georgiana Slough**

DWR is inviting the public to attend a meeting to discuss the proposed use of a non-physical fish barrier in Georgiana Slough. The barrier is intended to prevent out-migrating Chinook salmon from entering the slough, which diverges from the south bank of the Sacramento River and flows into the central Delta. The meeting will be held Tuesday, Dec. 7, in Walnut Grove. More information is available [here](#).

**BDCP working draft
is now available
for download**

The new Bay Delta Conservation Plan (BDCP) Working Draft is now available to the public. You can read or download it from the [BDCP website](#). A list of [frequently asked questions](#) has been developed to help find key information about the plan. The FAQ is meant to guide users to the most current information to help better understand issues under consideration in the planning process.

**DPC seeks
proposals for
consulting services**

The Delta Protection Commission (DPC) is soliciting proposals for consulting services related to the economic sustainability plan for the Sacramento-San Joaquin Delta. The California State Lands Commission provides contracted fiscal and administrative services to the DPC and will be the primary point of contact for bidders. Details on the nature and scope of the project can be found on the [DPC website](#).

**ISB to clarify
legal obligation during
Sacramento meeting**

The Delta Independent Science Board (ISB) will meet in Sacramento on Thursday and Friday, Dec. 9 and 10, to clarify how it will fulfill its legal obligation to review Delta programs. The ISB will also be assessing stressors to Delta native fish populations. The meeting notice can be found [here](#). The [agenda](#) is available on the Delta Stewardship Council website.

**Delta water meeting
set for next week
in San Francisco**

The next meeting of the National Research Council (NRC) Committee on Sustainable Water and Environmental Management in the California Bay-Delta will be held Wednesday, Dec. 8, in San Francisco. The meeting will include a panel discussion on the Bay Delta Conservation Plan. The complete agenda can be found [here](#). To register, fill out [this form](#).
